VARIETIES ONLY**

HINTS ON CARE AND CULTURE OF ROSES

Any good garden soil is all right for roses. Most amateurs make the mistake of enriching the rose garden too much. Select a sunny situation away from trees and shrubbery. Spade or plow well, make an opening large enough to receive the plant with the roots spread out naturally. Place the plant into position and fill hole about two thirds with top soil. Water well, allow water to settle and finish filling hole with soil.

The plant should be set a little deeper than it grew in nursery. If any fertilizer is used, it is best applied on top of the bed. Cultivation is very important; keep the rose bed well hoed but do not dig too deep, two inches is sufficient. During dry weather it is very important that you water your roses, water after the fashion of a good rain, allow to dry out and cultivate. Do not keep the bed soaked all the time. Roses like water and must have moisture to grow and bloom—but good drainage is also essential. They are never happy in a sour bed.

McClung Bros. roses are pruned for setting before being shipped. They will need no further pruning the first season. The proper time for pruning is the next season just before the buds begin to swell in spring. In pruning cut back to within 5 or 6 eyes of the ground.

ROSES YOU CAN DEPEND UPON TO SATISFY

AT REDUCED PRICES

**25c Each, prepaid; 1 Dozen \$3.00, prepaid
100 \$20.00, prepaid; 1,000 \$150.00, not prepaid**

President Herbert Hoover—A glorious new multi-colored rose unfolding its broad, thick petals unhurriedly from the beautiful pointed bud. Vivid cerise-pink, softly flamed with yel-

low, orange and scarlet; this combination most emphatic on the reverse. The perfume is exquisite; the foliage ornamental.

Margaret McGredy — Orange-vermillion blooms with foliage light green and healthy. One of the best for home gardens.

Rev. F. Page-Roberts. Double golden yellow blooms. Free blooming Spring and Fall.

Lady Margaret Stewart—Golden yellow, streaked with orange and red. One of the best new roses.

Betty Uprichard—Copper-red buds opening to semi-double large blooms of brilliant orange on outside of petals. One of the best bloomers.

Etoile De Hollande—Very large, well built, brilliant red blooms. Fragrant. One of the best new garden roses.

Dame Edith Helen—A beautiful shade of clear pink, freely produced on long stems. Grows well.

Talisman—Same description as regular Talisman, except climber.

ALL ADDITIONAL ROSES—PRICES:

25c Each; \$3.00 Dozen; \$20.00 100 Prepaid
\$150.00 1,000 Not Prepaid. 500 at 1,000 Rate

Talisman—The most gorgeous assemblage of colors in one flower ever presented by a Rose. Here are the strong colors exhibited, mostly in well defined angular blocks; gold, apricot-yellow, blood-orange, deep pink and old rose. The bud is long and shapely, developing into medium-sized, compactly double flowers; a free-bloomer, with glossy foliage.

Luxembourg—A new yellow. Flowers deep orange, much larger than sunburst. Long pointed buds on graceful stems. Beautiful foliage. Strong thrifty growers. The best and most beautiful deep yellow rose we have grown.

Kaiserin Augusta Victoria—Queen of the white family. Pure white. Never a tinge of pink. Splendid large buds and superb full double blooms. A continuous and profuse bloomer. We consider this rose our very best

white. It has been chosen by vote of the American Rose Society as one of the best twelve roses in America.

Francis Scott Key—One of the largest reds. Easy to cultivate. Its color is a beautiful crimson red, shading to cerise. A profusion of petals opening to a higher center. Thrifty grower, very hardy with a beautiful foliage. Wonderful for cut flowers.

Pink Radiance—America's leading rose, according to the decision of the American Rose Society. It is indeed a beautiful pink rose large pointed buds of clear even shade of pink opening into a tulip shaped blossom on long graceful stems. A very thrifty grower with waxy foliage.

Red Radiance—Beautiful red, sport of pink Radiance. Just alike except its color. Stands second among the twelve best roses of its class in America.

Mrs. Chas. Bell or Shell Radiance—A sport from radiance and just like it except the bloom is a very even shade of soft clear shell pink.

Jonkeer J. L. Mock—Clear pink, under side of petals rosy, almost silver white. Blooms of magnificent size on long erect canes.

Lady Hillingdon—Deep apricot yellow to orange. Long slender pointed buds. A very free flowering variety and striking decorative rose. Thrifty, sturdy, spreading growth.

Columbia—Words fail to do justice to this marvelous new rose. A very beautiful peach pink deepening as it opens. Superior shaped buds on very large and nearly thornless stems of good length. Very hardy.

Sunburst—Another leading yellow. The color is golden orange and deep yellow varying at different stages of development.

Paul Neyron—Produces the largest pink rose in the world. Long graceful stems. A half dozen will make a nice bouquet.

Souv. De Claudius Pernet (Per.)—The sensation of the day in yellow roses. Sunflower

yellow, large blooms, perfectly formed. Very fragrant, dark glossy foliage. Vigorous growth.

White American Beauty or Frau Karl Druschki—This rose stands at the top of the H. P. group of roses in America. Pure snow white. Long pointed buds with large double flowers. The bud sometimes has just a tinge of flesh as it begins to open, but develops into a pure white blossom. It has held its own in competition with all the new roses introduced since 1900. It will take a good one to beat it.

Mme. Butterfly—Light pink buds, tinted with gold near base of petals. Plant strong and richly perfumed.

Sensation—Scarlet-crimson blooms. Plant strong and very active.

Briarcliff—Very much like the Columbia but is a deeper rose-pink. Good growth and free-flowering.

William F. Dreer—Very large buds and flowers of deep rose pink. Highly perfumed and blooms freely.

EVERBLOOMING POLYANTHAS OR BABY RAMBLERS

Cecile Brunner—(Called Sweetheart Rose)—Small formed buds and flowers of light pink with yellow base, borne in graceful clusters. Vigorous, faithfully blooming plant.

F. J. Grootendorst (H. Rug.)—Bud small, flower open, double, borne in clusters on average length stems; very lasting; slight fragrance. Color bright, edges of petals serrated like a carnation; disease resistant. Vigorous grower of bushy habit; bearing a profusion of blooms from June to October. Very hardy.

Ideal—Continually in bloom of clusters of small dark scarlet. A bed or border makes a splendid mass of velvety color all season.

Baby Orleans—The showiest and prettiest of the pink Dwarf Polyantha Roses. This charming variety is a huge bouquet of small double, pink roses from early spring until killing frost.

Golden Salmon—Bright orange salmon flowers that bloom in huge clusters. First really orange Polyantha. One of the best.

Hansa—The largest rose we have that blooms in clusters of bright red. Vigorous, large foliage of superb quality. Makes a fine everblooming hedge.

OUR SELECT LINE OF CLIMBING ROSES

Climbing Red Radiance—A sport of bush red radiance and like it except it is a vigorous climber.

Climbing Columbia—Sport of the bush Columbia, almost thornless and excites the admiration of all who see it.

Climbing K. A. Victoria—The best white climbing rose. Pure white, shading at base of petals to a light cream. Very fragrant.

Climbing Paul's Scarlet—No other rose in any class can compare with it for brilliancy of color. The flowers are medium size, semi-double, scarlet, very freely produced in clusters from top to bottom of plant. The very finest pillar rose when trained to stake.

Climbing Meteor—Intense velvet crimson. Large buds and blossoms. Very double and borne on long stems, with bright foliage of darkest green.

Marechal Neil—This is an old favorite, beautiful yellow which still holds its prestige in competition with the many fine new ones, a vigorous climber.

Climbing Francis Scott Key—One of the largest and best crimson reds, sport from the bush Francis Scott Key. Our own propagation, no others have it. Thrifty grower, very thorny, beautiful foliage. A strong climber and perfectly hardy. The very finest pillar rose when trained to stake. You have to see this rose to appreciate it for words fail to describe the brilliant color, blooms monthly.

PLANT McCLUNG BROS. ROSES AND AVOID DISAPPOINTMENT

Two year field grown, budded on strong healthy disease resisting stock. Average height in nursery about two to three feet Well branched with fine root system. The heavy plants or the best grades are only offered to our customers. Upon receipt of your order the plants are dug fresh from the field and are not robbed of their vitality by repeated handling and are packed well.

We guarantee them to be true to name and to reach you in a good fresh condition or your money back. We are ready to gladden your heart with the best there is in rose plants. With only one profit added and not using a highly colored and very expensive catalogue and the way we conduct our business, we are able to furnish you any amount that you may desire.

TRY A BED OF ROSES ALL ONE COLOR

Imagine a large bed of Francis Scott Key, Luxembourg, Hillingdon, etc.

IT'S THE IDEA NOW!

ANY BUSINESS HOUSE IN TYLER

In presenting this, our latest folder, we wish to state that Tyler, (Smith County) Texas, is the world's largest rose growing center. Shipping each season over one hundred car loads. And a large per cent going by broken freight, express and parcel post shipments into every state in the United States, to be resold by other nurseries, florists, dealers and agents. Roses from this territory do well under ordinary treatment in almost every kind of soil and climate conditions in the U. S. and some foreign countries. We wish to inform you that we are growers of two year field grown, monthly ever blooming budded rose bushes, on a very large scale, here in Tyler, under our personal supervision, growing many car loads of over one hundred varieties and have culled the varieties down to a few of the very best and hardiest sorts of which are listed in this folder.
